About Consumer Action and the Legal Practice

Consumer Action is an independent, not-for-profit consumer organisation with deep expertise in consumer and consumer credit laws, policy and direct knowledge of people's experience of modern markets in Victoria. We work for a just marketplace, where people have power and business plays fair. We make life easier for people experiencing vulnerability and disadvantage in Victoria, through financial counselling, legal advice, legal representation, policy work and campaigns.

On the land of the Traditional Owners, the people of the Kulin Nations, our dedicated staff work collaboratively and deliver integrated services and projects. We have just over 50 employees and promote a diverse and inclusive culture which upholds our values of respect, fairness, reflection and courage. We strive to be an employer of choice and provide employee benefits which supports work-life balance.

The Legal Practice currently consists of around a dozen lawyers and two legal assistants. The practice provides legal advice direct to the Victorian public through our consumer advice service telephone line. The practice also advises consumers through referrals and stakeholders. The practice also operates a dedicated worker advice service to provide legal support to financial counsellors, community workers and community lawyers seeking specialist legal advice. All matters are also assessed according to our legal intake criteria, and lawyers can provide more detailed advice to clients with our practice representing some clients in litigation and complex dispute resolution.

The practice provides training on relevant legal topics to financial counsellors and sector stakeholders. The lawyers also run specific projects on current strategic issues which involves more complex research and knowledge, stakeholder engagement and relationship development. The practice works closely with other Consumer Action teams, which includes contributing to broader policy development, strategic campaigns and law reform, and engagement work to improve access to justice. It is a dynamic, collaborative and high impact practice.
